### **Photo/DVD Failure**

Due to the extreme working conditions and sensitivity of switches on digital devices, we cannot guarantee the outcome of the DVDs or photos. Should the still photographs or the DVD fail for any reason, a full refund will be given on the photo or DVD – not the jump. Filming skydiving is an extreme job, performed under the ever-changing extreme conditions, which means that no two DVDs or photos can ever be the same. Factors such as light conditions, camera persons's style, temperature, moisture, etc. are just a few of the variables to contend with. In short, sometimes our cameras fail, like all machinery can.

Please also be advised the DVD may vary from customer to customer due to weather conditions and the camera person's style.

We reserve the right to upgrade your jump height to a higher altitude at our expense.
